**Summary**

The payee section was updated to simplify and clarify the following:

- The paper referral is still needed for GA and WCCC referrals,
- The Child SafetyNet payments not covered by the chart in the Protective Payee Handbook must be discussed and approved by DSHS.
- Child SafetyNet monies are not returned to the state unless there is a loss of contact.
- Protective Payee Periodic Social Services Report (DSHS 01-110A) - This is completed and sent in to the social service worker three months after the initial contact and every six months thereafter.
- The protective payee returns to the State any money retained on the client's account using DSHS 01-210. No money is returned to the CSO.
